

PRODUCT INFORMATION SHEET

BLUECOL 5 YEAR ANTIFREEZE

DESCRIPTION

Bluecol Five Year Antifreeze is a superior quality Ethylene Glycol product incorporating the latest organic acid technology to provide outstanding protection against frost, corrosion and overheating in all modern engines, especially highly loaded aluminium types. Volkswagen approved product for all applications.

ADVANTAGES

- Protection for life coolant – minimum five years
- Mixed fleet protection – one coolant for cars, vans and trucks (petrol and diesel)
- Protects all types of engines, particularly highly loaded aluminium, where red antifreeze coolant is specified
- Contains a bittering agent to prevent accidental swallowing
- Maintenance free – low additive depletion
- Excellent compatibility with seals, hoses and plastic components
- Silicate free
- Helps prevent winter freezing and summer boil over

PERFORMANCE LEVEL

- BS6580 : 2010
- VW/AUDI/SEAT/SKODA (G12 / TL-774D, G12+ / TL-744F)

PROPERTIES

Appearance	Clear Liquid	
Colour	Fluorescent Red	
Density @ 20°C	1.125	
pH (1:2 dilution with water)	8.00	
Reserve Alkalinity (ml)	>20	
Boiling Point (°C)	>165	
Freezing Point (°C)	1:1	-37
	1:2	-17

NOTES

- To obtain optimum protection a 50/50 antifreeze and water mixture is recommended.
- Bluecol Five Year Antifreeze is compatible with good quality traditional (Blue/Green) silicate antifreezes however it is not recommended that the two types be mixed as this would completely negate any extended life characteristics of the five year product. It is for this reason that extended life antifreezes are coloured Red/Orange.
- It is recommended to thoroughly flush through the system with clean water if a conventional coolant (i.e. blue/green/yellow colour) has been used previously.
- If neat fluid is spilled onto paintwork, rinse off immediately.

AVAILABILITY

1 Litre – BCR001

2.5 Litre – BCR025

5 Litre – BCR005

25 Litre – BCR225
